

Wonder FULL Lyrics

WHY, WHAT, WHERE, WHO

By Dana L Cohenour ©1994 (BMI)

Why does the wind blow and where does it come from?
Who is the man in the moon?
How does a fish breathe under water?
So many questions, you're wondering...

Why, what, where who
So much for you to know
Why, what, where who
Answers will come, as you grow

How does a caterpillar change to a butterfly?
Where is the end of the rainbow?
What is a dinosaur and when will I see one?
Why is a snail so slow?

So much for you to know
Why, what, where who
Answers will come, as you grow

We can find an answer to our every question
If we just keep thinkin' in the right direction
Why, what, where who

How many stars shine bright in the night sky
Who painted stripes on the zebras
What makes the grass green and how do the birds fly
Why does the owl keep asking, who, who, who, who, who, who

Why, what, where who
So much for you to know
Why, what, where who
Answers will come, as you grow...

We can find an answer to our every question
If we just keep thinkin' in the right direction

Why, what, where who
So much for you to know
Why, what, where who
Answers will come, as you grow...

Why, what, why, why what where who
So much for you to know

Why, what, where, why what where who

Doo doo doo, doo doo doo doo...

WHICH (One Will I Choose)

By Dana Cohenour ©2025 (BMI)

Here we are at the grocery store
Mom says I gotta pick one more
Green vegetable to try
Oh, why can't I just eat another white french fry
Green things look oh so yucky
How did I get so unlucky
I wish I could, but I can't refuse
So which one will I choose

CHORUS

Eating green things gives me the blues
Which green veggie will I choose
Which slimy, smelly, scary green thing
Will I choose

Broccoli looks like a little tree
I see it growing right in front of me
Why am I thinkin' 'bout wrinkly peas
Oh, mama, please fry me up a nice grilled cheese
Celery, spinach or stringy green beans
I'd really rather open up a can of sardines
I prefer fruits with reddish hues
Oh, which one will I choose

CHORUS

I can't pick one, can't make a call
I'll just get it over with and try 'em all
Hey, hey broccoli's not that bad
And peas aren't the worst thing I've ever had
Now I love spinach, I'll eat it forever
Zucchini, sorry, you're a no-go-never
Surprise! I like greens, but here's the bad news
I still don't know which one to choose

Eating green things used to give me the blues
But now that I've tried 'em, I still can't choose
Which yummy, crunchy, healthy green thing
Will I choose

Which one, which one, which one will I choose
Which one, which one, which one will I choose

Green veggies, green veggies, green veggies, green veggies
Which one, which one, which one will I choose

WHO (Are My People)

By Dana L Cohenour ©2025 (BMI)

Who are the ones who make me smile when I'm feeling sad
Who are the ones who help me settle if I'm feeling mad
If I fall, they lift me up, they help me learn and grow
They're in my heart and always with me everywhere I go

CHORUS

Who-oooh, who are my people
Who-oooh are the ones I love
We're always there for each other
My mama, daddy, sister and brother
Who-oooh, who are the people
Spinning a circle of love around me
Who are my people
My family

My mom and daddy keep me safe, and tuck me in at night
They teach me what is wrong or right and shine a guiding light
Grandma bakes up cookies and shares her stories while we play
Grandpa tells his silly jokes, we laugh the day away

CHORUS

Families can be big or small, they don't all look the same
Different faces smiling in the family picture frame
Families cheer each other on, together we are strong
When we're with our people, we are right where we belong

Who-oooh, who are the people
Who-oooh are the ones we love
Who's always there for each other
Mamas, daddies, sisters and brothers
Who-oooh, who are the people
Spinning circles of love around us
Who are the people, who are the people
Who are the people, the people we love
Who are the people who are family
Who are the people, the special people
Who are family

WHY (Do I Have to Wait)

By Dana Cohenour ©2024 (BMI)

Why do I have to wait
Why do I have to wait
Why is it hard to stand in line
Waitin' for the turn to finally be mine
Why do I have to wait
Why do I have to wait
I know I can't always be first
But all this waiting's just the worst

CHORUS

Why, why, why oh why
Why is it so hard to wait
Someone can you tell me why
All this waitin's so frustratin'
Why, why, why oh why
Can't I make time fly by
Why do I have to
Wait

Why do I have to wait
Why do I have to wait
Why does traffic stop in the street
While I'm stuck here buckled in my car seat
Why do I have to wait
Why do I have to wait
Until it's time for recess to play
And, why do I have to wait for my birthday

CHORUS

Patience can be hard to find
I'll take a breath, calm my mind
Remember that anticipating
Can be fun while I'm waiting... right

Why do I have to wait
Why do I have to wait
Why do I have to wait all year
For Santa Claus to reappear
Why do I have to wait
Why do I have to wait
I'm just sittin' here contemplatin'
Wonderin' why I'm still waitin'

CHORUS (2X)

WHAT (CAN WE DO)

By Dana Cohenour ©2025 (BMI)

Earth has been smiling for billions of years
But lately she's raining down unhappy tears
Her climate is changing, the green house is gassed
Thermometer's rising, she's heating up fast
Earth has a fever, she's too hot for sure
But each one of us can be part of the cure

What can we do to keep our planet healthy
What can we do to keep our planet cool
Change things around, turn the temperature down
What can we do, me and you

We can make a difference with small things we do
Recycle, reuse or repair just like new
Use our two feet when we're not goin' far
Ride a bike or a bus 'stead of driving a car
Limit the gasses we put in the air
And show Mother Nature we really do care

What can we do to keep our planet healthy
What can we do to keep our planet cool
Change things around, turn the temperature down
What can we do, me and you

Remember to switch off the lights when we go
Switch off the lights whenever we go
Unplug from the wall, stop the energy flow
Stop the energy flow
Don't waste the water, turn off that faucet
Turn off the faucet, don't let it drip
Refill the same bottle, don't need to toss it
Don't need to toss it

Protect and plant trees, there's so much to do
Tell all your friends because they can help too

What can we do to keep our planet healthy
What can we do to keep our planet cool
Change things around, turn the temperature down
What can we do, me and you

What can we do to keep our planet healthy
What can we do to keep our planet cool (Save the planet)
Change things around, turn the temperature down (Save the planet)
What can we do, me and you

What can we do to keep our planet healthy
What can we do to keep our planet cool
Change things around, turn the temperature down

What can we do, me and you

What must we do, me and you

What must we do, me and you

What must we do, me and you

Me and you, what must we do

Save the planet

What must we do to save the planet

What must we do to save the planet

Wonder FULL

By Dana Cohenour ©2025 (BMI)

Every day when you wake up

I see your wheels start spinnin' around

There's so much to think about

So many answers to be found

Your mind is open and you're ready to go

You're so excited, you just want to know

CHORUS

You're constantly curious

You've got a million questions

You're full of wonder and it's wonderful

To see the spark lighting up your eyes

Each time the world brings a new surprise

You're constantly curious

Ya got a million questions

You're full of wonder, you are wonder-full

Everywhere you look 'round every turn

There's something new for you to learn

They never end, there's always more

Discoveries to make, thoughts to explore

So, keep your beautiful eyes open wide

You're ready to burst with the wonder inside

CHORUS

Along the road of life you travel

Will be endless mysteries to unravel

I hope you'll never stop inquiring

And always find the world inspiring

CHORUS

Constantly curious ya got a million questions

You're full of wonder

You are full of wonder
You are full of wonder
You are wonder
You are wonder FULL

HOW (Can I Make Someone's Day?)

By Dana Cohenour ©2024 (BMI)

We can make a big difference
With the little things we do
If we look around and notice
What other people are going through
So, as I'm walkin' 'round the neighborhood
Gonna find a way to make someone feel good (I'm wonderin')

CHORUS

How can I make somebody happy
How can I make somebody smile
How can I show someone I care
And spread kindness everywhere
How can I make somebody happy
How can I make somebody smile
I'll think about it, and find a way
How can I, how can I... make someone's day

Sometimes a simple thank you
Is all a person needs to hear
There's power in a few kind words
Or maybe just a listening ear
No, it really doesn't take a lot
Just a little bit of extra thought (So I'm thinkin' 'bout)

CHORUS

When I share some joy each day, the more I have found
That kindness has a funny way of circling 'round
There's no limit on love, it's absolutely free
And every bit I give away comes right back to me

How can I make somebody happy
How can I make somebody smile
How can I show someone I care
And spread kindness everywhere

How can I make somebody happy
How can I make somebody smile
How can I show someone I care
And spread kindness everywhere
How can I make somebody happy
How can I make somebody smile
I'll think about it, and find a way
How can I... how can I, how can I

How can I... how can I, how can I
How can I... make someone's day

WHEN (Does it Happen)

By Dana Cohenour ©2024 (BMI)

When do the leaves fall down
And change from green to red and brown
When do we go back to school
And feel the air turn crisp and cool
When do we pick apples sweet
And finally get to trick or treat
When does it happen... in fall

Halloween and hayrides in fall
Pumpkins and Thanksgiving in fall
When does it happen, in the season of fall

When do the snowflakes fall
So we can build a snowman tall
When does it feel cold as ice
And cups of cocoa go down nice
We bundle up to sled and skate
Animals take a nap and hibernate
When does it happen... in winter

Santa Claus and Christmas in winter
Hannukah and Kwanza in winter
When does it happen, in the season of winter

When do the raindrops fall
So plants and flowers can sprout up tall
When do blossoms say hello
And everything begins to grow
Birds sing and the sky turns blue
The world takes time to start anew
When does it happen... in spring

Colored eggs and bunnies in spring
Leprechauns and tulips in spring
When does it happen... in the season of spring

When does the sun shine all around
We can spend all day long on the playground
When does the air feel hot, hot, hot
And cold lemonade really hits the spot
Time to jump in the swimming pool

Have lots of fun while we're staying cool
When does it happen... in summer

Picnics and fireworks in summer
Baseball and ice cream in summer
When does it happen, in the season of summer

When does it happen
Season to season
When does life happen
Season by season
Fall, winter, spring and summer

WHERE (Can It Be)

By Dana Cohenour ©2025 (BMI)

Where oh where oh where can it be
I can't find my favorite blankie
My blankie means so much to me
Oh, where oh where can it be

It's not in the car or behind the chair, I can't find it anywhere
Not under the couch or on the bed, I'm about to lose my head
Daddy says, don't throw a fit, we'll look some more and think a bit
Oh, looky here, whaddy know... It's right where you left it

Where oh where oh where can it be
Now I can't find my precious teddy
My teddy bear means so much to me
Oh, where oh where can it be

He's not in the sink or in the tub, I can't find my little cub
I'm lookin' left, I'm lookin' right, but he's still hiding out of sight
Mama says, don't throw a fit, we'll look some more and think a bit
Oh looky here, whaddy know... It's right where you left it

Where oh where oh where can it be
My bright red mitten is now an escapee
I really don't know how it could flee
Oh, where oh where can it be

I'm lookin' high, lookin' low, I'm digging deep down in the snow
Where did it go, for all I know it's in a pot under the rainbow
I won't throw a fit, I'll look some more and think a bit
Oh looky here, there it is... right where I left it

If I put my things away
I'll find them fast another day
They'll never go missing without a trace
They'll always be right in their place

I'll never have to look around, I won't live at the lost and found
Things that mean the most to me, will be where they're supposed to be
I won't have to throw a fit, I'll find each one lickety split
Where's my blankie, I know
Where's my teddy, I know
Where's my mitten, I know
Right... right... right where I left it

ANSWERS (Will Come)

By Dana Cohenour ©2025 (BMI)

So many questions rolling in my mind
Sometimes the answers are very hard to find
But if I keep asking and learning as I go
I will figure out the things I need to know (and the)

CHORUS

Answers will come
I will keep thinking, I will keep looking and the
Answers will come
Some are big, others small
I may never find them all
But I will find some
The answers will come

Searching for solutions as I wander
This universe of wonder, so much to ponder
On my way I'll find the magic in mystery
I will keep seeking, answers will be waiting for me

CHORUS

Sometimes answers take time to appear
Then all of a sudden, everything is clear
At night while I'm sleeping, dreaming in my bed
I discover answers that were hiding in my head

The answers do come
I will keep thinking, I will keep looking
The answers will come
Some are big, others small
I don't need to find them all
But I will find some

And the answers will come

Answers will come...
